

Software Updates - P2P - Version 3.2.1

Software Updates – May , 2018

This document summarizes the software changes deployed on TBD, 2018 for the Peer-to-Peer fundraising module.

Functional Improvement

- **Reply-To email address:** The reply to email on any email sent from a logged in fundraiser is now the email address the fundraiser used to register.
- **Leaderboard Widgets:** Leaderboard widgets have been enhanced to allow you to select which image you would like displayed. Options are now available: None, Banner, Profile.
- **Donor Roll Widget:** Donor Roll Widget had a limit to display 3 donations. You can now customize the number.
- **Menus and Pages, area to write into the header:** There is now an area in the administration form where organizations can add script, css or meta tags into the header area of each page.
- **Blank values enabled on Select Options :** When customizing the drop down values in a select field. You can now add an option with a blank value. This allows you to then add required validation to require that a value is selected from the field. Example: State. This allows you to add a placeholder --- with a blank value and then add validation to ensure users select a real state.

Bug

The following issues have been resolved.

Administration & Operations

- **Duplicating Activity Rows:** When an administrator duplicates an activity, the participant site settings are now maintained on the duplicate.
- **Custom Domains:** When using a custom domains, the 'login as a fundraiser' tool does not work.
- **Image Library:** Deleting images from the library was not working.

- **Admin | Manage Groups – limited search:** Searching for participants in a group was limited and did not provide a “View More” button.
- **Admin: Add offline gift – limited search:** Searching for a team to add an offline donation did not return enough results to was not returning a view more button when the number of results exceeded 25.
- **Admin: Add offline gift – wrong default:** Offline gifts entry form was defaulting to hide donation rather than show.
- **Admin: Add offline gift – not saving anonymous:** Offline gift entry form was not saving Anonymous value.
- **Site domain failure when the site had no logo identified.**
